Experience

EDUARDO SACCONI

2018/ Current - Supply Chain Specialist for Energy Transition; Oil & Gas; and Mining [Critical RAW Materials]

I have been a Professional Engineer for more than thirty-four years.

I am a Specialist in providing professional Supply Chain team management services for private Clients in their EPCM and sustainable O&M Projects, which they execute in the Energy Transition; Oil & Gas, and Mining [Lithium, Gold; and Critical RAW materials].

I lead the design, implementation, and execution of Supply Chain Plans to achieve the committed objectives in compliance, supplier development, prices, costs, quality, term and controls.

ACHIEVEMENTS:

MINING: EPCM Lithium, and Gold projects:

I was hired by Technologies <https://m3eng.com/>, as Supply Chain Manager to serve Eramine (Join between Eramet/ France <https://www.eramet.com/en> and Tsingshan/ China <https://www.tssgroup.com.cn/en/>), for Centennial LITHIUM Project/ Ratones Deposit(Site at 3800 masl)/ Salta Province, Argentina.

I was hired by BARRICK Gold www.barrick.com /as Supply Chain Site Manager for Veladero Site <https://veladero.com/> San Juan Province/ Argentina (my Desk at 5000 masl).

Isolux Corsán/ Argentina

Group Supply Chain Manager

2010/ 2018 - I led teams in EPCM supply projects <<Turnkey Mode>> of Power Generation Plants: 240 MW/ 860 MW, for public and private clients.

Joint Budget Projects of up to USD 2,800 Million. I have led the execution of contracts and purchases (foreign and local), Comex, Logistics, Supply, National and International Transportation and Warehouses.

ACHIEVEMENTS: Supply of the Execution, in << Turnkey Mode >> of three Power Generation Plants in the range of 240 MW to 860: "Río Turbio Project", "Ensenada-Barragán Project" and "Brigadier López Project"/ Argentina. Contracts and Purchases: USD 1030 Million. Renegotiation of contracts and debt with suppliers.

CH2M HILL/ Argentina

Contracting & Procurement Manager

2006/ 2010 - Contracting and Procurement outsourcing services for Oil & Gas private companies.

ACHIEVEMENTS: Led teams for joint purchases at SHELL, PETROBRAS, CABOT and EXXONMobil, and new Biofuels port project.

I led contracting & purchasing teams for SHELL Distribution Engineering Argentina/ Expansions of Biofuels Dispatch Terminals.

I led and trained teams in CH2MHILL Brazil carrying out twenty-three Capex Projects SHELL, from SHELL Brazil to Royal Dutch SHELL.

Lamc & Assoc./ Argentina

Superintendent & Construction Manager at Site

1998/ 2006 - Oil & Gas: I managed the construction and maintenance, at sites, of Natural Gas and Oil Pipelines and new Gas Natural Compressor Plants.

Tyco/ Argentina

Construction Manager

1995/1998 - Fire prevention and fighting systems for Oil & Gas.

ESSO/ Argentina (an ExxonMobil company)

Superintendent of tanker ships. Engineering & Maintenance

1989/1995 - Engineering & Maintenance: I was responsible for accounts and execution of Turn-around and General Repairs of tanker ships.

Relevant studies
